NEW BUILDING FOR B. Y. A. Heavy Sentence for Davis for Burglary - Wedding Bells.

Special Correspondence. Provo, Utah Co., May 4,-At the stake Priesthood meeting, Saturday, the principal topic under consideration was the question of funds for the new building to be erected by the Brigham Young academy this summer. President John and Counselors Keeler and Holbrook spoke of the benefit the academy is to the Latter-day Saints

and urged that the amounts apporral wards of the stake be collected as promptly as possible.

The question of amusements for the young during the summer season was also considered and the necessity for supervision as to the places visited, and for the exercise of every legitimate in-fluence to prevent Sabbath breaking were strongly urged.

The following named brethren, recom-The following named brethren, recommended for ordination to the offices named, were sustained: James H. Clyde and Wm. Clyde of Springville, and Asa B. York of Provo, to the office of High Priest; and Alfred Liddiard of Provo, and Conrad Mang Jr., of Vine-

yard, to the office of Elde FOURTH DISTRICT COURT.

The case of the state vs Jos. Davis was tried in the Fourth district court Saturday before Judge Chidester. Davis and Fred Fish were accused of entering a Rio Grande freight car at Spring-ville, last January and taking some shoes and hats. The two were arrested in Salt Lake in February and brought Provo, where they had a preliminary examinuation and were bound over to examinuation and were bound over to await the action of the district court. They afterwards escaped from the county jail, and Davis was arrested in Oregon and brought back by Sheriff Harmon. He denied entering the car and claimed he got the goods from a box outside of the car, but the jury evi-dently did not believe him, as they re-turned a verdict of guilty.

Defendant waived time for sentence and Judge Chidister sentenced him to seven years in the state prison. This sentence was quite a surprise to Davis. and his partner, Fish, may thank his ucky star he was not caught, but Judge Chidester is determined to miss

no opportunity to show that he expects the law to be observed.

The jurors were excused till the 18th and cases set for the 7th, 8th and 9th were continued till that time, except the case of Boardman vs Boardman, which will probably be set for some time before the 18th, provided some other judge can be induced to come and hear it, as Judge Chidester cannot remain—he will go to Heber to hold court—and Judge Booth has gone to Keneh.

Logan, Cache Co., May.—As a result of the instructions of the state board of equalization during its recent visit, County Assessor Richardson began increasing tax valuations, some will be raised 100 per cent. The total valuation of Cache valley

property must be increased a million and a half in order that it shall meet its proportion of the state's expenses. The advance is a bombshell in business cir-cles, and will probably cause long continued agitation, as prominent business men announce their determination to prevent the increase if it can be done. C. #### FAIRVIEW. Frontier "Mormon" Settlement-Demise of Old Utah Settlers.

Special Correspondence. Fairview, New Mexico, April 26.-Thi place was settled in 1874 by M. E. Willis and brothers. We are located 28 miles north of Santa Fe, in a nice valley of the Rio Grande. We have a good climate, but it seems a matter of impossibility to get Latter-day Saints to stay here and be satisfied. We are entirely surrounded by a Mexican pop-ulation, whose ways and manner of living are entirely different from ours. They practise some very peculiar things and call it religion. It brings to mind some things we read of that happened in the dark ages.

We have had to lay away three of Utah's early settlers here. The first was Sister Ellen Willis, who emigrated to Itah from England in 1863 and settled in Toquerville and became the wife of Bishop J. T. Willis. In June, 1901, Brother Horace Russell laid down life's burden. He went through all the per-secutions of the Saints in the early days of the Church. On the 14th of this month we were called on to mourn the loss of Sister Lovina Rogers, who left a family of small children.

The old gentleman had been very despondent for some time, on account of the gradual failure of his eyesight, and on account of severe suffering from rheu-matism. He was a native of Germany, but came to Bluff Dale from Iowa about five years ago. His age was a little over 70 years. He leaves a widow and two grown sons, who were living with him. This throws quite a gloom over our community, as the old gentleman was well respected by all who knew him.

Bolse, Idaho, April 28 .- U. S. department of agriculture, Idaho section, climate and crop service, weather bureau. Comparatively high temperature with some cloudiness and occasional local showers characterized the weather at the beginning of the week; this was followed by several bright, warm days, with some frost at night except in ex-treme western sections. Snow in the niountains melted rapidly, causing streams to rise. About the 26th oc-curred a change to much cooler weather, accompanied by light rain over most of the state; though this retarded crop growth materially, cloudiness a alght prevented the occurrence of damaging frosts.

Farm work progressed without in terruption throughout the week; irrigation has been begun in the southvestern counties.

avored localities. Grass-Range grass has made good growth over most of the state, though some of the lower ranges need rain. Alfalfa is growing rapidly, and other hay crops are starting well. Damage to meadows from the continued cold eather in February appears to have een confined to a few localities. There a a scarcity of alfalfa seed in some utheastern sections.

DARBY, IDAHO. COUNTRY OF RICH RESOURCES Room for Industrious Homeseekers -Promising Outlook for Mining.

Special Correspondence. Darby, Fremont County, Idaho, April 20.-This ward is situated three miles east of Driggs ward, overlooking the valley both north and south. Our soil of if the rich, black loam, to a depth of three to six feet. We have water and grass in abundance. Once is all we irrigate grain, and once for a crop of hay. Our mountains on the east are full of timber and ore, millions of timber going to waste every year. have an excellent cattle range in the reserve, the regulations of which protect our cattle from the intrusion of industrious settlers. We have a beautiful townsite laid out and a good many lots have been bargained for. We expect a number of buildings to go up this summer, a block has been selected for a beautiful meeting house, which will be erected in the near future.

We expect before long to get our postoffice back, which was given up last year. There is talk of a store and an opera house going up, which we would gladly welcome. The sun seems to shine brighter on the people this spring than ever before, with all the copper and gold, and coal and oil that will be taken out this summer, will make this one of the richest camps in the west. A. A. Hansen in this ward has struck a rich vein, running in copper and gold.

We would again invite the Latter-day homeseekers to look at this part of the vineyard, we believe they will be satisfied with the place. Our school is excellent and everything will be built for the comfort of the people.

St. Johns, Apache Co., Arizona, April 25.—The weather here is quite warm and windy; no rain, and very little snow in the mountains. What fruit was not killed by the frost, is now being damaged materially,, by a small fly-like, yellowish insect. So the prospects are not very flattering. But it requires the "eye of faith" to look into the future and see what this people have in store for them. How the people here store for them. How the people here have existed the past five years is unexplainable; still we have lived, and so far as the writer knows, none has suf-fered for bread.
